Your retirement lifestyle

The retirement lifestyle you envision, as well as your existing savings, determines how much you need to save. Many financial advisors estimate you need 50 to 70 per cent of your gross pre-retirement income to maintain your lifestyle.

Use the formula below to calculate what that would be:

| | | | |
|----------------------------------|---|-------------------------------|-----------------------------------|
| Your gross pre-retirement income | X | Multiply by 50 to 70 per cent | Your total annual retirement goal |
| | X | | |

If you want to use this guideline, move ahead to **Step 2: CALCULATE** on page 13.

Or, go to the next page where you can choose a retirement lifestyle and use the matching budget as your guideline. You can also customize a budget to suit your goals or create a budget that's entirely your own.

Picture yourself in retirement

The descriptions below portray three different retirement lifestyles. Pick the one that most closely resembles the retirement you envision.

CONSERVATIVE

This lifestyle could provide a modest home or rental unit in a smaller city. Much of your time is spent with friends and family who live nearby. Leisure time is spent gardening, volunteering and going for long walks on the nature trails that wind through the city. Vacations are modest, usually by car, and you stay in a modest hotel or your trailer.

COMFORTABLE

With this lifestyle you could see yourself in a three-bedroom house or condo in a medium-sized city. You'll have some free time – and money – to go to local community affairs and charities. Cycling in the summer and cross-country skiing in the winter bring a great deal of enjoyment. This year's trip is a one-week stay at a nearby resort.

ABOVE AVERAGE

This lifestyle may include a three-bedroom house in a large city and a modest cottage. Leisure time pleasures include gardening, reading a good novel, canoeing and cycling. Renting an apartment on the sandy white shores of Portugal for two weeks distracts you from the long winter months.

On the following pages are budgets that match each lifestyle. Use the final column “Custom” to create a budget that's all your own.

WHAT'S NEXT

After you determine your retirement budget on the pages 11 – 12, go to your second step *Calculate*, on page 13. You'll learn how to calculate how much you need to save for your retirement lifestyle.

CALCULATE YOUR SAVINGS GOALS

The *Plan your retirement* tool calculates how much you need to save to retire in the lifestyle you'd like. You can quickly launch the tool from your home page on *GRS Access* (www.grsaccess.com) and you can also find it under Planning & learning > Plan your retirement.

Use the tool, to explore different “what if” scenarios and walk through the entire retirement planning process:

- Choose a budget that matches your desired retirement lifestyle
- Determine how much you need to reach your retirement goals
- Select funds that match your investment personality, goals and how much time you have to contribute

If you forget your Access ID and password, call *Access Line* at 1-800-724-3402.

Get on track

No one cares more about reaching your retirement goals than you do. Your plan sponsor simply provides the foundation with this retirement or savings plan; you do the work by contributing to the plan and monitoring your progress.

Select

You now have an idea of three things:

- What sort of retirement you want
- How much it's going to cost
- What you need to do to get there

Next, you need to find out which funds your savings will be invested into.

Choosing the right investments for you

Every path to retirement is unique — even for people with the same goal.

It's important to choose the investment or combination of investments that best suits you.

Your plan sponsor wants to help you reach your goals and has carefully selected investment choices that best suit your plan.

Your plan offers:

- Target risk asset allocation funds
- A range of investments which allows you to select your own

Take the time to learn more about these funds by reading the investment chart on page 26 or the fund reports on www.grsaccess.com.

YOUR PLAN'S DEFAULT FUND

If you don't make any investment selections, your savings will be invested in your plan's default fund. This may not be right for you so take the time to choose your funds carefully.

Your plan's default fund:

Conservative Continuum Fund

Your other investment choices

To learn more about your other choices, you first need to discover your investment personality. On the next page you'll find the *Investment personality questionnaire*. It will help you get a better understanding of your risk tolerance and will assist you in selecting investments.

STEP 3

Explore your investment personality and risk tolerance by answering the following 14 questions. The results will help you select the investments that best suit you.

Section one – Investment objectives

1. What is the intent of your portfolio? Please select the most appropriate one.

| | Points |
|--|--------|
| (a) To generate income for today | 0 |
| (b) To generate income at a later date | 10 |
| (c) To provide for my dependents (I do not anticipate using these funds) | 15 |
| (d) To fund a large purchase in the future | 10 |

2. What is your major goal for your portfolio? Please select the most appropriate one.

| | Points |
|--|--------|
| (a) To ensure my portfolio remains secure | 2 |
| (b) To see my portfolio grow and avoid fluctuating returns | 5 |
| (c) To balance growth and security, and to keep pace with inflation | 10 |
| (d) To provide growth potential, and to accept some fluctuation in returns | 15 |
| (e) To provide the sole objective of potential long-term growth | 20 |

Total points for section one

Section two – Personal information

3. Which of the following ranges includes your age ?

| | Points |
|--------------|--------|
| (a) Under 30 | 15 |
| (b) 30 to 39 | 15 |
| (c) 40 to 49 | 15 |
| (d) 50 to 59 | 10 |
| (e) 60 to 69 | 5 |
| (f) 70 to 79 | 3 |
| (g) Over 79 | 2 |

4. Which of the following ranges best represents your current annual family income (including pensions) before taxes?

| | Points |
|---------------------------|--------|
| (a) Under \$30,000 | 4 |
| (b) \$30,000 to \$60,000 | 6 |
| (c) \$60,001 to \$90,000 | 8 |
| (d) \$90,001 to \$120,000 | 10 |
| (e) More than \$120,000 | 10 |

5. After deducting any loan or mortgage balances, which one of the following ranges best represents your immediate family's overall net worth?

| | Points |
|----------------------------|--------|
| (a) Under \$30,000 | 2 |
| (b) \$30,000 to \$50,000 | 4 |
| (c) \$50,001 to \$100,000 | 6 |
| (d) \$100,001 to \$200,000 | 8 |
| (e) \$200,001 to \$300,000 | 10 |
| (f) More than \$300,000 | 10 |

Total points for section two

Section three – Investment horizons

Investors often have distinct phases in their investment plans. The initial phase is savings and growth. During this time an investor builds up a portfolio toward a future goal. The second phase is typically the use of funds, either for a specific purchase or for income.

6. When do you anticipate using these funds?

| | Points |
|-------------------------|--------|
| (a) Immediately* | 0 |
| (b) One to three years* | 0 |
| (c) Four to five years | 5 |
| (d) Six to 10 years | 10 |
| (e) 11 to 15 years | 15 |
| (f) 16 to 20 years | 20 |
| (g) More than 20 years | 20 |

7. At the time you need this money, when will you withdraw it?

| | Points |
|---|--------|
| (a) All at once, in a lump sum* | 3 |
| (b) Over a period of less than two years* | 3 |
| (c) Over a period of two to five years | 5 |
| (d) Over a period of six to nine years | 8 |
| (e) Over a period of 10 to 15 years | 10 |
| (f) Over a period of more than 15 years | 15 |

***If your response to question six is either (a) or (b), and your answer to question seven is also (a) or (b), your needs are short term.** Consider using money market funds or short-term guaranteed interest investments to meet your savings goals.

This retirement plan is intended for long-term investing. Using this money for purposes other than retirement planning is not advised and may not be allowed under the registered pension plan locking-in rules.

8. What are your intentions regarding withdrawals and/or contributions to your investments today and over the next five years?

| | Points |
|--|--------|
| (a) I plan to withdraw money at regular intervals and do not plan on making contributions. | 5 |
| (b) I will likely make a lump-sum withdrawal and do not plan on making contributions. | 7 |
| (c) I will likely to be making both contributions and withdrawals. | 8 |
| (d) I will likely make additional contributions and will not be withdrawing any funds. | 10 |
| (e) I will certainly make regular contributions and will not be withdrawing any funds. | 15 |

Total points for section three

Section four – Attitude toward risk

9. Which statement best describes your knowledge of investments?

| | Points |
|---|--------|
| (a) I have very little knowledge and I rely exclusively on the recommendations of financial advisors. | 2 |
| (b) I have limited knowledge of stocks and bonds, and I do not follow financial markets. | 5 |
| (c) I have a good working knowledge and I regularly follow financial markets. | 8 |
| (d) I understand completely how different investment products work; including stocks and bonds, and I follow financial markets closely. | 10 |

STEP 3

10. Realizing there will be downturns in the market, in the event of a significant loss, how long are you prepared to hold your existing investments in anticipation of a recovery in value?

| | Points |
|----------------------------|--------|
| (a) Less than three months | 5 |
| (b) Three to six months | 8 |
| (c) Six months to one year | 10 |
| (d) One or two years | 15 |
| (e) Two to three years | 20 |
| (f) Three years or more | 25 |

11. Assuming you invest \$100,000 for the long term, what is the maximum drop in your portfolio's value you could comfortably tolerate in any given year?

| | Points |
|--|--------|
| (a) I'd be uncomfortable with any loss.* | 2 |
| (b) A \$5,000 drop is all I could live with. | 5 |
| (c) A \$10,000 decline is something I could tolerate. | 10 |
| (d) A \$15,000 drop would be about all I could stand. | 15 |
| (e) A \$20,000 decline is pretty much my limit. | 20 |
| (f) I could live with a decline of more than \$20,000. | 25 |

12. Which of the following statements most correctly describes your investment philosophy?

| | Points |
|---|--------|
| (a) I cannot accept any fluctuation in principal.* | 5 |
| (b) I can only accept minimal fluctuations and prefer to invest in safer, lower-return investments. | 10 |
| (c) I am willing to tolerate some ups and downs in the value of my investments to achieve overall higher returns in the long run. | 20 |
| (d) My main interest is high, long-term returns and I am not concerned about short-term decreases in the value of my investments. | 30 |

Total points for section four

*If your response to question 11 or 12 is (a), you should re-evaluate your need for growth and carefully consider your desire for stability. Portfolios without fluctuations in values generally have no growth component. If you cannot tolerate loss, even short term, consider using money market funds or short-term guaranteed interest investments to meet your savings goals.

Section five – Portfolio volatility

Investment portfolios aimed at providing higher returns tend to have greater swings in value (providing both gains and losses). The more aggressive your portfolio, the more pronounced these swings become, and the more often short-term losses can occur.

13. A portfolio is a basket of different investments. The returns earned by a specific portfolio depend on the mix of investments that make up the portfolio. The following graph shows the probable range of returns (from best to worst) of four hypothetical portfolios over a one-year period. In which of these portfolios would you prefer to invest?

| | Points |
|-----------------|--------|
| (a) Portfolio A | 5 |
| (b) Portfolio B | 10 |
| (c) Portfolio C | 20 |
| (d) Portfolio D | 30 |

14. Some investors are more willing than others to accept periodic declines in the value of the portfolio as a trade-off for potentially higher long-term returns. Which response best represents your feelings toward the following statement?

I am willing to experience potentially large and frequent declines in the value of my investment if it will increase the likelihood of achieving higher long-term returns.

| | Points |
|-----------------------|--------|
| (a) Strongly agree | 20 |
| (b) Agree | 15 |
| (c) Disagree | 10 |
| (d) Strongly disagree | 5 |

Your investment personality is: _____

Over time, your financial objectives, personal circumstances and the level of risk you're comfortable with will change. We recommend you revisit the *Investment personality questionnaire* regularly or whenever your personal circumstances change significantly, for example: marriage, promotion, etc.

STEP 3

Target risk asset allocation funds

Target risk asset allocation funds are often called “target risk” or “asset allocation” funds and are an easy way to invest your savings. You simply have to choose the fund that matches your investment personality from the *Investment personality questionnaire*.

BENEFITS TO YOU:

- Diversification within a single fund – strength of one investment offsets a weakness in another
- Easy to use and manage
- Matches your personal investment objectives and risk tolerance
- Helps you avoid emotion-based decisions and market-timing
- Makes tracking your savings easier
- Automatically rebalances to suit your investment personality

HOW THEY WORK

Target risk funds are specifically designed to match your investment personality and give you exposure to many investments in a single fund solution. They're designed so you make only one selection from the list of target risk fund options.

Target risk funds are automatically rebalanced to ensure the asset allocation remains current and consistent with each fund's investment objective.

This graph shows the difference in risk and return for each investment option.

The asset mixes illustrated above are examples. Refer to the fund reports for the actual asset mix of each target risk fund in your plan.

With target risk funds, you should take the *Investment personality questionnaire* every few years to make sure your risk tolerance still matches this fund. If it doesn't, you should consider changing your investments to reflect your new risk personality.

YOUR PLAN'S TARGET RISK ASSET ALLOCATION FUNDS

Your plan offers the following target risk asset allocation funds:

- Conservative Continuum Fund
- Moderate Continuum Fund
- Balanced Continuum Fund
- Advanced Continuum Fund
- Aggressive Continuum Fund

For the fund reports associated with these target risk funds, visit www.grsaccess.com under Investments.

STEP 3

Select your own investments

Using your investment personality as a guide, you can select a specific set of investments that best suits your personality and goals.

BENEFITS TO YOU:

- Allows you to be hands-on with your investments
- Provides the opportunity for you to choose specific investments
- Gives the chance to diversify your investments to suit your goals

HOW TO SELECT YOUR OWN FUNDS:

First you need to find the recommended asset mix for your investment personality, which you determined in the *Investment personality questionnaire*.

An **asset mix** is the recommended distribution of your investment dollars among different asset classes.

An **asset class** is a group of similar investments. They're grouped together based on how they earn a return or what they invest in. Your plan offers a selection of funds that may fall into one or more of these asset classes. You can identify asset classes by these symbols:

Asset allocation funds

Balanced funds

Canadian equity funds

Cash and equivalent funds

Fixed income funds

Foreign equity funds

Special equity funds

The recommended asset mixes in this section illustrate suggestions for each investment personality. These asset mixes have been selected by investment experts. Simply select the asset mix chart that matches your investment personality.

After you find your asset mix, turn to the investment choices chart to match specific investments to your asset mix.

It's a good idea to invest no more than 25 per cent of your investments in any one fund (with the exception of asset allocation funds). If your asset mix recommends that you have more than 25 per cent in one asset class, consider selecting more than one fund.

By staying within the suggested asset mix percentages, you're growing your savings in a way that's comfortable to you.

This isn't however, a one-time process. As your life changes, so can your risk tolerance so it's a good idea to take the *Investment personality questionnaire* regularly to make sure your investments are still working for you.

Guaranteed investments

Your plan also offers guaranteed investments. These investments aren't based on an investment personality but offer an interest rate on contributions you invest for a predetermined time.

The interest rate offered on a guaranteed investment doesn't change. Sometimes the growth in a guaranteed investment may not even keep pace with the inflation rate.

Although you're guaranteed to get your initial contributions back with the stated interest, it may not be enough to help you reach your retirement savings goals. However, if you're close to retirement or you'll soon need to access the money you saved, guaranteed investments may be a good choice to avoid market fluctuations.

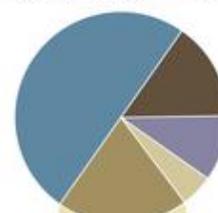

There may be fees or penalties associated with redeeming a guaranteed investment prior to its maturity date. Review your member booklet for more information.

STEP 3

Recommended asset mixes

CONSERVATIVE

The conservative asset mix is the least aggressive option, with a primary emphasis on income. It's designed for investors who have a short period of time to invest, want a regular income, or have concerns about investment volatility. A small equity component is included to bolster returns above fixed income levels over the long term.

* If you choose not to include balanced funds in your portfolio, our suggested asset mix is fixed income 75%, Canadian equity 15%, foreign equity 10%.

MODERATE

The moderate asset mix is suitable for investors who have a medium period of time to invest and prefer more income than growth. With the largest portion of the asset mix in fixed income investments, and a good portion in equities, the risk is lower than other more aggressive options, but still provides a solid component for growth.

* If you choose not to include balanced funds in your portfolio, our suggested asset mix is fixed income 60%, Canadian equity 25%, foreign equity 15%.

BALANCED

The balanced asset mix is suitable for investors who want a longer-term balance between growth and income at reduced risk. The largest portion of this asset mix is in equities.

* If you choose not to include balanced funds in your portfolio, our suggested asset mix is fixed income 40%, Canadian equity 35%, foreign equity 25%.

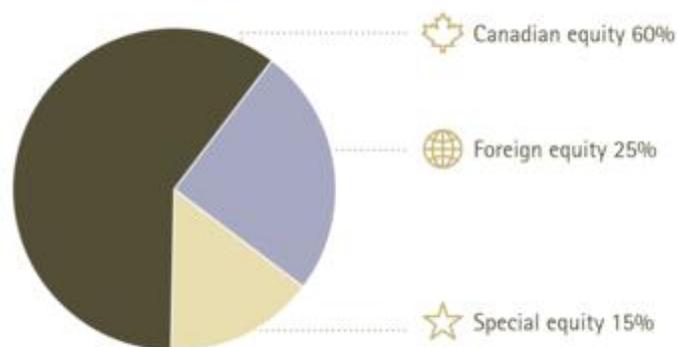

ADVANCED

Advanced investors prefer to emphasize growth. The largest portion of this asset mix is in equities and a moderate amount is in fixed income investments. It's appropriate for investors who want some income in the short term, but are more interested in long-term capital appreciation.

AGGRESSIVE

Aggressive investors want the potential for maximum long-term growth. This asset mix consists solely of equity investments, which is appropriate for people with a long period of time to invest and who aren't concerned with short-term investment volatility.

FIND OUT MORE ABOUT YOUR INVESTMENT OPTIONS

On the next page, all of your investment options are summarized in a brief overview. For more details on a particular fund, read the fund reports on www.grsaccess.com.

* The indicated growth in rates of return reflects changes in unit value and reinvestment of all distributions and is net of the fund operating expense and applicable taxes. It does not take into account investment management fees and applicable taxes payable by the unitholder which would reduce returns. Performance data is provided for illustrative purposes only and represents past performance, which is not necessarily indicative of future performance. Rates shown are valid at time of publication.

** Investment management fees and fund operating expenses shown are exclusive of applicable taxes. Fund operating expenses fluctuate based on asset levels and actual expenses incurred, and are not guaranteed or projected; they are reported retrospectively by calendar year and are calculated as a percentage of the fund.

WHAT'S NEXT

Continue to the fourth step, *Enrol* on the next page. *Enrol* will explain how to join your plan and will give you tips for staying on track to reaching your retirement goals.

STEP 4

Enrol

Now it's time to enrol in your plan. Enrolling is easy, just fill out the forms that start on page 32.

You may need to send different forms to different addresses so make sure you review each one carefully.

Keep the dream alive

Congratulations! By enrolling in your group retirement and savings plan, you've taken the first steps towards achieving your retirement goals.

Review the *Stay on track* checklist to see how you can continue to make the most out of your group retirement and savings plan.

Stay on track

- ❑ **Review and keep your statements** – They provide a snapshot of your retirement savings and whether or not you're on track to reaching your goals. You can also find copies of your statements at www.grsaccess.com.
- ❑ **Increase contributions, if your plan allows** – To see the difference even a small increase could make to your retirement income, visit *My 1 per cent advantage* at www.my1percentadvantage.ca. It's also available at www.grsaccess.com in *Smart tools* in the *Learning centre*.
- ❑ **Act on your responsibilities** – No one cares more about your future than you do. As a plan member you're responsible for:
 - Making investment decisions that fit your goals and risk tolerance
 - Informing yourself about your group retirement and savings plan using all the tools available to you
 - Seeking advice from a trusted financial advisor
- ❑ **Review your goals** – You should review your plan at least once a year or as personal circumstances change. Your annual review should include taking the *Investment personality questionnaire* to make sure your risk tolerance hasn't changed.
- ❑ **Monitor your investments** – Keep a close eye on your investments and the other investment options in your plan. You can do that using your statements, fund reviews, fund reports, *GRS Access* and *Access Line*.
- ❑ **Keep perspective** – Short-term changes in the market are normal. Switching your investment choices because one investment looks like it's gaining value or your current investment is decreasing in value may not help you in the long-term.
- ❑ **Make sure your investments are living up to your expectations** – Take note of the *Retirement income illustrations* on your statements. They'll let you know if you're currently on track to meet your retirement goal; they will also show you the likelihood of reaching that goal based on different rates of return. To make the most effective use of this feature, complete the planning tool on www.grsaccess.com.

Investment Information

Fund Reports

In selecting appropriate investments that match both your goals and investment style, you may want to spend some time reviewing the **fund reports** for your plan choices. These are located at www.grsaccess.com under Investments.

Forms

Here you'll find the forms you need to enrol in the plan. Complete and submit to the address indicated on the form. Forms may have different return address information.

Take note:

- If you want to join the registered retirement savings plan (RRSP), complete the form on page 33.

SECTION 3 – ISSUER INFORMATION

The Great-West Life Assurance Company and key design are trade-marks of The Great-West Life Assurance Company (Great-West), used under licence by London Life Insurance Company (London Life) for the promotion and marketing of insurance products. London Life is a subsidiary of Great-West. The group retirement, savings and annuity product(s) described in this application are issued by London Life.

SECTION 4 – BENEFICIARY INFORMATION

In this section the applicant can name a beneficiary. The person or persons named below will receive the death benefit under the plan, subject to applicable pension legislation which may require payment to the applicant's spouse or common-law partner.

- All beneficiary designations are revocable **except** a designation where:
- a *Designation of irrevocable beneficiary* form is completed; or
 - the **Civil Code of Quebec** applies and the beneficiary is the applicant's spouse (designated without stipulation of revocability) – see box below.

- Where the Civil Code of Quebec applies, any designation of an applicant's spouse as beneficiary is irrevocable unless the applicant stipulates the designation to be revocable by checking the box below** ("spouse" here means married or civil union spouse). Where a beneficiary designation is irrevocable and while that beneficiary is living, the applicant may not, without the consent of the beneficiary (who must be of legal age to give consent), change or revoke the designation, make withdrawals from the plan where permitted, assign, surrender, exercise certain rights under or in respect of, or otherwise deal with the contract.
 I, as applicant, stipulate that whenever in this application my spouse (see above definition) is designated as beneficiary, that designation is **revocable**.
- Where a minor beneficiary resides in Quebec** - Benefits payable under this plan to a beneficiary who, at the time payment is to be made, is a minor, will be paid to his/her tutor(s), unless a valid trust has been established for the benefit of the minor, by will or by separate contract, to receive the benefits and the Issuer has been provided notice of the trust. If a trust has already been established, designate the trust as the beneficiary in this section. **Legal advice should be sought.**

I hereby appoint the following primary beneficiary(ies) to receive proceeds in the event of death of my death. I reserve the right to revoke any and all revocable beneficiary designations. I also understand that beneficiary choices may, among other things, affect any possibility of creditor protection for the plan. Unless the law requires otherwise, the entitlement of any beneficiary who predeceases me will revert to my surviving beneficiaries in equal shares, or if there is no surviving beneficiary, to my contingent beneficiary(ies). If there is no appointed or surviving contingent beneficiary(ies), the entitlement will revert to my estate/successors.
